Fire Threat to People
With Areas Potentially Containing Alluvial Fans
Derived from GIS Dataset by PBSJ Corporation
Alluvial Fan Task Force

IMPORTANT NOTICE:
The Alluvial Fan GIS Dataset is an approximated delineation based on criteria established to support the Alluvial Fan Task Force. It is not a set of regulatory floodplains. These delineations are intended to provide approximate boundaries for Alluvial Fans and are not intended to be used as floodplain maps unless supported by further study and analysis. Its sole purpose is for advisory/awareness information only.
